Introduction

Congratulations

Thank you for purchasing the Avonic CM-CON100 Keyboard Controller. Before beginning to operate this device, please read the manual in order to make sure the best performance is obtained. Save this manual for future reference.

Safety Notes

- Installation and servicing should only be done by Qualified Service Personnel and conform to all local codes.
- This unit is designed for indoor use only and it must not be installed where exposed to water or other liquids and moisture.
- Before powering on the device, check the input power voltage carefully.
- Avoid shock and vibration when transporting and installing the device.
- Use wall mount brackets or ceiling mount brackets available at Avonic for safe installation.
- Electronic devices produce heat. Do not block the ventilation slots of the device and make sure the installation environment is well ventilated to avoid overheating.
- Before cleaning, unplug the power cable. Use a soft, damp cloth to clean the device, do not use strong or abrasive detergent to clean that will damage the device.
- If you wish to dispose this product, please contact Avonic to obtain info about the take-back procedure.

Compliance Statements and Certifications

- FCC: This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: 1. This device may not cause harmful interference, and 2. This device must accept any interference received, including interference that may cause undesired operation.
- CE: Certification

Package contents and Accessories

Quantity	Description	Avonic SKU
1 pc	PTZ Camera Keyboard Controller	CM-CON100
1 pc	Power Supply	CM-CON100-PSU

Product Overview

The Avonic CM-CON100 is a mini keyboard controller is a full-function system keyboard. With features of ergonomic design, multi-function, high reliability and easy operation, it is a perfect controller for PTZ cameras, video conference cameras, surveillance cameras and so on.

Features

- 4D joystick for pan/tilt/zoom/focus control, ergonomic design and excellent finishing;
- High brightness OLED display;
- Auto backlight keys;
- Shortcut keys customization;
- Batch program cameras in the systems;
- Multi-level protection from illegal operation or setting;
- Multi-baud rate and protocols;
- 256 addresses;
- Compact design with portable features;

Product Description

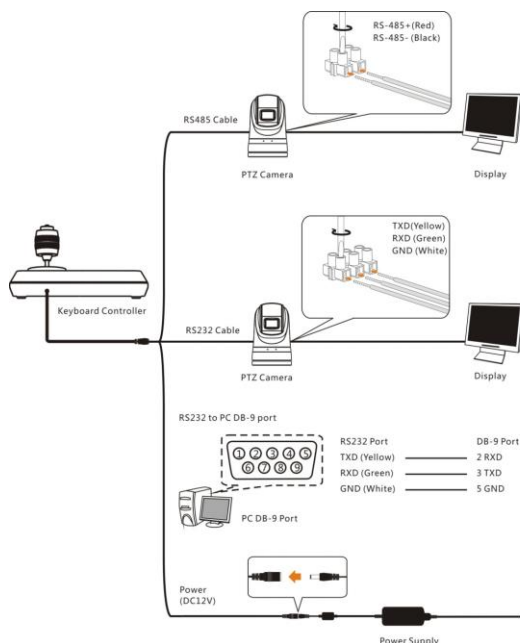

1. OLED screen. The OLED screen displays status of current operation.
2. CALL (Call preset) Input preset number, then press CALL key to call a preset

3. CAMERA (Switch cameras) Input camera number, then press CAMERA key to switch to another camera.
4. SET (Set / Clear preset) Input preset number, then press SET key to set or delete a preset (Short press to “set”; long press to “clear”).
5. SETUP (Enter setup menu) Press SETUP key to enter menu and program the keyboard
6. CRUISE (Auto Cruise) Press CRUISE key to do auto cruise.
7. PATTERN (Pattern Scan) Press PATTERN key to do pattern scan
8. F1, F2 Toggle between Auto Focus and Manual Focus
9. SHIFT (Extension key) It is an extension key to be used with other keys for special functions.
